

**Herculaneum Community Advisory Group Dealing with Lead Smelter
Contamination**

AGENDA

April 15, 2003

Please note: Review of approved meeting format and issues

- Each person has the freedom to express their concerns and opinions To ensure this remains so, all comments are to be addressed to the head table [Core team or presenter]
- Time may not permit for each person to be able to say all they want so to be fair, speakers will number off to determine order of comments
- The meeting format is designed so each person can speak directly to the person who can best address concerns and opinions.

Paper will be provided at these meetings so anyone who is more comfortable writing their questions or suggestions can do so.

Letter to Gulliford

Old Business

Report of Action Group meeting

- CAG request to be included in quarterly meetings with agencies and Doe Run (letter to Jim Gulliford)
- Update (Jim Kasten) on CAG request to attend Doe Run meeting day after CAG meeting
- Status of recommended temporary remediation for slag pile (Has Doe Run agreed?)
- Announcement: Impact of the buyout focus group (needs new name to convey focus on future and revitalization) meets every 4th TUESDAY of the month at 7:00 p.m. – 196 Dunklin – call Jo Ann Thompson at (636) 479-3331.
- Announcement: Dean Wilson of University Extension will help develop guide sheets for growing vegetables in Herculaneum. Anyone interested should sign up with the Soil Priority Focus Group after the meeting, or contact Dean at (636) 797-5057.

New Business

- April 2nd deadline for Doe Run's transportation and material handling plan
- Use and effectiveness of Doe Run's truck washing
- Clarification of street monitoring procedures: Location of monitors (what streets)? What techniques are used to monitor street dust? How often is monitoring? What are the current conditions? Do warning signs need to be posted on some streets? *15 SAMPLES FROM 7 LOCATIONS*
- Impact of cinders: Has anyone tested the cinders? Are cinders a source of lead? *OVER A MONTH*
- Track team exposure to lead dust (School track runs during hours when company trucks are active on Main street.)
